STATE UNIVERSITY STUDENT KILLED

Account Below Written By One of Our Boys Who Probably Saw Tragedy

Lexington, Ky., Oct. 16.—Elbridge Griffish, of Benton, Ky., a freshman in the Arts and Science department of State University died at 8:15 o'clock last night. His death was due to a fractured skull and broken neck, caused by being thrown to the pavement when a stone car hit him in the head while he was walking home from the university.

Jefferson avenue C. P. church was the scene of an attractive wedding Tuesday evening when Miss Mary Lee Morehead and Mr. Dudley Clifton Noggle were united in marriage, the ceremony taking place at eight o'clock.

Weekly Weather Forecast

On Saturday and Sunday the weather will be very cool with high winds and a good deal of rain. The weather will be very cool the remainder of the week. The temperature will be somewhat above normal, but will bring the greater part of the week.

The poor boy who died is identified to be too violent. The faculty will find in this a highly suitable opportunity for the students to call for a meeting to offer resolutions. Various committees from the class are to be chosen to buy flowers as tokens of respect. 500 students will be in black attire, and the students involved in this will effectively settle any adverse class questions.

In the contest this year no trick or foul play of any kind was resorted to. Everybody conceded it to be the best, the fairest and the closest contest ever held. The freshman won the contest and everybody went away happy except the Sophomores, who admitted that they had been fairly beaten.

The freshman took the rope when they had so hardly won and carried it triumphantly the business district and into N. Broad street. Here they stopped, where, with the consent of the authorities, they were allowed to stand, they were allowed to stand and class, school, and faculty. From there they marched back down the Broadway to the college. They maintained good order and the regulations. In accordance with the traffic laws of the city, they were on the right side of the car track, and when they turned left on Third street the whole length of the rope had to cross the car track. When about one half of the rope had crossed, a southbound car approached, but instead of stopping as was expected, it rushed at full speed into the rope, which tightened and threw 12 or 15 of the boys violently to the pavement and across the street. Griffish, because of his short height was thrown on his head and sustained a fractured skull and broken neck, from which he died four hours later.

Whether the motorman ran in to the rope in a spirit of good-natured fun, with the intention of beating the boys at their game or whether, impatient at delay, he rashly ran into it at full speed hoping to get by at any hazard, has not yet been determined, though the latter is the almost unanimous verdict.

Feeling ran high among the students. They were highly indignant at such treatment. Never

Y. The Central Home Telephone & Telegraph Company has spared no expense to give the citizens of this community a telephone system that in every particular is modern and up-to-date, and the citizens of this community should give a vote of thanks to the company which has been so progressive and so quick to recognize the needs of the people.

The Local Telephone Exchange is now up to the highest standard of efficiency.

The Marion Home Telephone Exchange which is a part of the Central Home Telephone & Telegraph Company, of Louisville, has recently provided the citizens of Marion and Crittenden county with new telephone equipment that is of the latest design and manufacture; and, although the old equipment still keeps with modern business policies, decided to move into more spacious quarters, and in addition, spend a considerable sum of money for a new magazine, the Halstead home, Mr. Neville Moore; Abraham Barnes or factuated by the Stromberg-Carlson Telephone Manufacturing Company, Rochester, N. Y. The Central Home Telephone & Telegraph Company has spared no expense to give the citizens of this community a telephone system that in every particular is modern and up-to-date, and the citizens of this community should give a vote of thanks to the company which has been so progressive and so quick to recognize the needs of the people.

Pig and Corn Clubs

Every one realizes that if the average farmer keeps in pace with the other professions he must be educated according to his profession. And under the present system of things there is no better way to educate the young farmers than to organize corn and pig clubs in every hamlet in Crittenden Co.

The best and only way that will reach the heart of every boy and girl of this county, is to organize corn clubs in every school district.

Belonging to the clubs does not consist just in trying to win a prize or a little high honor. Those little things are nice in their place and are prized very highly, but the main object in the club is the education that we get which is valued more highly than all the prizes that we might gain.

It is the duty of every person to work for the interest of the boys and girls in his own school district if not in all the county. Every boy and girl member should strive to raise registered pigs and thoroughbred grain. It will be to the interest of every member to do their best in trying to cause a uniform type of stock and grain, in order to work to this end. We, the members of the Pig and Corn Club of Crittenden Co., (local club at Oak Hall,) do invite the boys and girls of the following districts to meet with the Oak Hall club members: Heath, Hebron, Forest Grove, Freedom, Brown and Seminary, on the night of Nov. 8th at 7 p. m. This meeting is for the purpose of getting new members and selecting one type of hog and one kind of corn, so the boys and girls of Crittenden county can be uniform farmers. Come one, come all to Oak Hall and join the educational band. D. H. Postlethwait, Pres. Miss Mayme Claphorn, Sec.

Neglect of the Boy.

Any father would be surprised at the suggestion that he is ruining his boy by neglect, that his absorption in business will result in the undoing of his own son.

But it is the easiest thing in the world to forfeit a boy's confidence. It will take only a little snubbing, a little scolding, a little indifference, a little unkind criticism, a little nagging and unreasonableness on the father's part to shut off forever any intimacy and real understanding between him and his boy.

One of the bitterest things in many a man's life has been the discovery, after he had made his money, that he had lost his hold upon his boy; and he would give a large part of his fortune to recover this loss, if he could.

It is an unfortunate thing for a boy to be looked upon as a task master instead of companion, and to dread to meet him because he always expects criticism or scolding.

Some fathers constantly nag and find fault with their sons, never praising them or showing and appreciation of their work, even when it is well done. Yet there is nothing so encouraging to a boy, especially if he finds it hard to do what is right, as appreciation of effort. This is a tonic to youth. Boys thrive on praise. That is why most of them think more of their mothers than they do of their fathers. The mothers are more considerate, more sympathetic, more affectionate, and do not hesitate to praise well-doing. United States) that 85 per cent of the boys and girls of the country get no schooling after they are 16, that only 10 per cent of the boys and girls ever reach the closing year of high school. Evidently the boys and girls (and their parents as well) do not think that education is worth getting, or that the education they would get is not worth getting. And it is an unspeakable calamity that nearly two and a half million of these youths are not in school nor working at any handicraft--growing every day as loafers, contributing to the nation's life nothing but laziness, degradation and depravity. This is a national matter, and every school room, business office and every pulpit should ring out the astonishing facts. Is education worth getting?--Ex.

SAFETY PIN DODGES KNIFE

Disappears From Baby's Stomach After Operation by Surgeon.

Warren, Pa., Oct. 19. Altho he swallowed an open safety pin and has undergone a futile series of operations for its removal, the 10-months-old son of R. A. Newhall, of Warren, is expected to live. He is at the Emergency Hospital here. An X-ray examination was made and a photograph taken, which showed the pin in the child's stomach with the point and catch holding it at the opening to the intestines; so an operation was decided upon. When the baby passed under the influence of the anesthetic it vomited, and the pin disappeared into the intestine. The wall of the stomach was drawn up after the gall-bladder.

The surgeon and the family are confident that the child will recover.

BABY TOSSED INTO TREE

Anto Smashes Little Carriage, But Lands Youngster Unhurt.

Greenwich, Conn., Oct. 19. Lillian Kalzing 6 months old was sleeping peacefully in her carriage on the lawn in front of the Kalzing home when a large automobile left the Boston post road, plowed through the stone fence and across the lawn. It struck the baby carriage and ground its wheels to bits, but it tossed the body of the baby twenty feet through the air and into the crook of an old apple tree. Mrs. Henry Kalzing, the mother, ran from the house and was searching for her infant when she heard a merry cooing and looked up. There was the baby gurgling happily to her mother.

UNCERTAIN HEART ACTION ALARMING

Mrs. W. O. Howell Says Tanlac Relieved Her Of Pal-pitation.

Louisville, Ky., Oct. 20.—Mrs. W. O. Howell, wife of the agent for the Louisville Carriage Company at the Seelbach Hotel, who lives at 619 South Jackson street, this city, is one of the most ardent believers in Tanlac, the peerless preparation, as is shown by a recent statement she made of the benefits she derived from it.

"I was weak and nervous and dizzy," she said, "any sudden noise made my heart beat so fast it frightened me. I had nervous headaches. Whenever I walked upstairs it left me almost exhausted.

"My stomach was weak and my food did not agree with me. If I ate anything solid it made me miserable. I was told that I had catarrh of the stomach, but the medicines I took did me no good until friends suggested Tanlac to me. I'm glad now that I took their advice.

"It was almost no time until I felt better, and now I can eat whatever I please. I owe it all to Tanlac. My nerves are in good shape again, and I no longer have palpitation of the heart. Tanlac is the only medicine that ever helped me. I can't say too much in praise of it."

Tanlac is now being sold in Marion at James H. Orme's drug-store, and in Blackford at A. T. Brown's drugstore. Adv.

Makes Rugs From Angora Goats.

In the current issue of Farm and Fireside a contributor tells as follows how she makes rugs from her angora goats:

"During late summer and early fall we killed some of our half-breed Angora goats. Their hides made lovely rugs. This is how I prepared them:

"Immediately after the hide is taken from the animal it is

carefully stretched and tacked to a board surface to dry. When it is dry I soak it in water until soft, then stretch, flesh side up, on a wide box and scrape all the flesh from it. Next rub with whites of eggs, then with powdered alum and saltpeter. Stretch and then tack up again for twenty-four hours.

"I suppose any suitable hide could be prepared for a rug in the same way."

Europe Already Holds

2,000,000 War Cripples.

New York, Oct. 19.—There are now 2,000,000 men in Europe who have suffered the loss of limbs, faculties or both as a result of injury in the war, according to Frank G. Gilbreth, of Providence, R. I., who has just returned from Germany, where he has been studying methods for giving employment to cripples. Mr. Gilbreth has been requested by Germany to instruct a corps of teachers how to enable cripple fighting men to become productive members of society after the war.

A paper by Mr. Gilbreth read last night before the Society of American Engineers said the problem of designing machines for cripples must be solved in the near future.

26 CASES OF BEER POURED INTO SEWER

Wares of Morganfield "Bootleggers" Are Destroyed on Judge Berry's Order.

Morganfield, Ky., Oct. 19.—With no one desiring to quench the thirst, twenty-four pints of "booze" and twenty-six cases of beer, and "near beer" were poured into the sewer by Sheriff Able, acting on orders given by County Judge Berry yesterday. Several jugs had been arrested charged with "bootlegging" and the wet goods were found in possession.

They were tried before Judge

Berry who found them guilty. All were given a fine and some drew sentences in the county jail. Jailer Brooks would not consent to allow the "booze" in the jail and as a result the court ordered the bottles and cases emptied into the sewer. Several persons witnessed the emptying of the intoxicants but none dared to ask for a drink.

This city is "dry" and the citizens here are attempting to put an end to the practice of "bootlegging" within the city limits.

A Pine Whooping Cough Remedy

Mothers, Dr. Bell's Pine Tar Honey is just the remedy for your children's cold ailments. The fact is that pine is a quick enemy of cold conditions. Its qualities loosen the mucous in the throat, soothe the lungs and open up the air passages. The combination of honey, soothing and pleasant, with the lessening pine quality, makes this an ideal cough remedy for children. Each passing year brings for it, new friends. A family of growing children cannot afford to be without it. 25¢ a bottle. 3

Marion Is Doing Some

Heavy Shipping.

There was shipped from Marion during September the following mineral ores: Fluor spar, ground and unground 32,106,000 pounds; zinc ores, including carbonate and blonde, 1,200,000 pounds; lead ores, 120,000 pounds. The values of these minerals were as follows: Fluor spar, \$15,780; zinc ores, \$39,000; lead ores, \$2,400; total values of all the minerals shipped during the month of September, \$57,180.

The shipment of black walnut logs from this place has also been very large, the English market taking these logs to manufacture gun stocks.

Including live stock, apples, peaches, etc., the value of the September shipments from Marion will reach \$75,000.

J. P. Morgan's Views On

The Big Foreign Loan.

J. P. Morgan, speaking to nearly 700 bankers and bond salesmen in the \$500,000,000 Anglo-French loan syndicate, declared that the issue is neither pro-American nor Anti-German, but pro-American; that it will be impossible for the resources of Great Britain and France to be affected materially by the war and that within five years the conversion privilege of the bonds into long term 4 1/2s will be a premium. He said this country is ready for a foreign loan. "We have a large amount of cash in the banks, business is picking up and there are everywhere signs of greater activity. People should now be ready to add to the variety of their investments by mixing some foreign bonds with their corporation and municipal issues. These bonds run for five years. By that time, please God, this war will be over, and well over, and a 4 1/2 per cent. investment will sell at a premium.

Europe Already Holds

2,000,000 War Cripples.

New York, Oct. 19.—There are now 2,000,000 men in Europe who have suffered the loss of limbs, faculties or both as a result of injury in the war, according to Frank G. Gilbreth, of Providence, R. I., who has just returned from Germany, where he has been studying methods for giving employment to cripples. Mr. Gilbreth has been requested by Germany to instruct a corps of teachers how to enable cripple fighting men to become productive members of society after the war.

A paper by Mr. Gilbreth read last night before the Society of American Engineers said the problem of designing machines for cripples must be solved in the near future.

WHY IS WOMAN RESTLESS?

DESTINY OF NATIONS DEPENDS UPON CONTENTED HOMES.

By W. D. Lewis.

President Texas "lives in Union. Why is woman dissatisfied? Why does she know restlessness under the crown of womanhood? Why is she weary of the God-given jewel of motherhood? Is it not a sufficient political movement for woman that future rulers nurse at her breast, laugh in her arms and kneel at her feet? Can a woman leap to more glorious heights than to sing lullabies to the world's greatest gemini, chant melodies to cluster winds and rock the cradle of human destiny?

God pity our country when the handshake of the politician is more gratifying to woman's heart than the pat-ter of children's feet.

Woman Is Ruler Over All.

Why does woman chafe under restraint of sex? Why revile the hand of nature? Why discard the skirts that civilization has clung to since the beginning of time? Why lay aside this hallowed garment that has wiped the tears of sorrow from the face of childhood? In its sacred embrace every generation has hidden its face in shame; clinging to its motherly folds, tottering children have learned to play hide and seek and from it have learned to reverence and respect womanhood. Can man think of his mother without this consecrated garment?

Why this inordinate thirst for power? Is not woman all powerful? Man cannot enter this world without her consent, he cannot remain in peace without her blessing and unless she sheds tears of regret over his departure, he has lived in vain. Why this longing for civic power when God has made her ruler over all? Why crave authority when man bows down and worships her? Man has given woman his heart, his name and his money. What more does she want?

Can man find it in his heart to look with pride upon the statement that his honorable mother-in-law was one of the most powerful political bosses in the country, that his distinguished grandmother was one of the ablest filibusters in the Senate or that his mother was a noted warrior and her name a terror to the enemy? Whither are we drifting and where will we land?

God Save Us From a Hen-Pecked Nation.

I follow the plow for a living and my views may have in them the smell of this soil; my hair is turning white under the frost of many winters and perhaps I am a little old-fashioned, but I believe there is more moral influence in the dress of woman than in all the statute books of the land. As an agency for morality, I wouldn't give my good old mother's homemade gowns for all the suffrage's constitutions and by-laws in the world.

As a power for purifying society, I wouldn't give one dollar of my saintly mother for all the women's votes in Christendom. As an agency for good government, I wouldn't give the plow of a mother's heart for righteousness for all the oaths of office in the land.

There is more power in the smile of woman than in an act of congress. There are greater possibilities for good government in her family of laughing children than in the cabinet of the president of the United States.

The destiny of this nation lies in the home and not in the legislative halls. The hearthstone and the family Bible will ever remain the source of our inspiration and the Acts of the Apostles will ever shine brighter than the acts of Congress.

This country is law-mad. Why add to a statute book, already groaning under its own weight, the hysterical cry of woman? If we never had a chance to vote again in a lifetime and did not pass another law in twenty-five years, we could survive the ordeal, but without home civilization would wither and die.

God save these United States from becoming a hen-pecked nation; help us keep sissies out of Congress and forbid that women become stepmothers to government. Is the prayer of the farmers of this country.

A DIVINE COVENANT.

God Almighty gave Eve to Adam with the pledge that she would be his helpmeet and with this order of companionship, civilization has towered to its greatest heights. In this relationship, God has blessed woman and man has honored her and after four thousand years of progress, she now proposes to provoke God to destroy man by asking for suffrage, thereby by amending an agreement to which she was not a party.

Woman, remember that the Israelites scorned a divine covenant, and as a result wandered forty years in the wilderness without God. Likewise man should remember that it is a dangerous thing to debase woman by law. Rome tried lowering woman's head and an outraged civilization took clothes off the backs of the man race and turned them out to roam in the world naked and unashamed.

\$800. REWARD OFFER.

ED FOR DYNAMITERS

Governor McCreary Notifies Judge
Gordon Of State's Re-
ward In Outrage.

Judge Gordon was notified Tuesday by Governor McCreary that the State of Kentucky would pay a reward of \$400 for the apprehension and conviction of the party or parties who dynamited a negro residence at Nortonville last week, resulting in the death of Will Cathron and the injuring of two others. A reward of \$200 has been offered by Hopkins county and the Nortonville Coal Company also offers a \$200 reward, making a total of \$800.00. It is rumored arrests will be made shortly.

Items About People We Know
From "Providence Enterprise."

Rev. I. W. Talley and wife, of the Shady Grove country, left here Friday morning for Christian county to visit relatives several

days.

Rev. E. S. Moore and wife reached here Monday on the Big Ohio from Owensboro, Ky., where he served a church last year. The annual conference recently in session at Hartford, sent Bro. Moore for the year and from what we have already seen of him and his wife we believe they will fill the bill and do good work. A reception was given them at the church Monday evening and was enjoyed by all. Lunch was served and short talks were made. Bro. Moore will deliver his first sermon next Sunday morning at eleven o'clock. Everybody is invited to be present.—Smithland Enterprise.

Mrs. W. C. Snow and little daughter, of Henshaw, arrived here Friday evening to visit Mrs. Snow's parents, Dr. and Mrs. J. B. Wallace.

Jas. E. Tapp has the contract for building an attractive dwelling for Dennis Hubbard on a 100 acre farm he recently purchased near Shady Grove.

Mrs. M. R. Givens has returned from Claremore, Okla., where she has been with Mr. and Mrs. Ross Givens for the last year, and the home which has been closed during her absence has been reopened. Mr. and Mrs. J. Stewart Givens, of Gainesville, Ga., will be with her for some time.

SCHOOL FAIR AT CHAPEL HILL.

The School Fair at Chapel Hill Friday was one of the best ever held in the county. By ten o'clock the ground was crowded with enthusiastic pupils, patrons, teachers and school people who are interested in Crittenden county's schools.

Most of the schools in the division were well represented. The contests were interesting and lively and prizes were not merely given, but won after hard fought intellectual battles.

Below you will find full report.

Andrew Woodall, one of the county's oldest men, died Saturday of the disease incident to old age. Had he lived until the day, Oct. 16th he would have been 80 years of age. His wife, who was Miss Leonida Ann Hall, before marriage, preceded him to the grave 8 years ago, Oct. 14, 1907. He came from Virginia when six years old and had lived here since. Mr. Woodall was buried at the Hill graveyard, Rev. J. W. Vaughn officiating. He was a life long member of First Creek Baptist church. Surviving him are ten children, six sons, Wm. N., James, Chris, and Flock, all of this section and Sherman and Mack of Washington State, four daughters, Sue, wife of L. N., Chayne, of Princeton, Mary, wife of John Campbell, Margaret, wife of James N. Boone and Helen, widow of John Boone, the latter three all of this county. Mr. Woodall had been in poor health in mind and body for the past year but had every care and attention from his children during his old days. Mr. Woodall was well known throughout Crittenden and surrounding counties, having been in the tobacco business for many years.

Line of Steel Barges To Be Operated On Ohio River.

Owensboro, Ky., Oct. 11.—A line of steel barges for the transportation of freight to be operated by powerful gasoline and electrical machinery, and piling up and down the Ohio and Mississippi rivers on a regular schedule which will be posted under a system of wireless telegraph dispatching, is a brief summary of plans announced in Louisville by Rossie Kent, head of the operating department of the Inland Navigation Company, of New York, a five million corporation. Mr. Kent is in Louisville with the launching of one of the company's big boats at the Howard shipyard in Jeffersonville this month.

The Inland Navigation Company, according to Mr. Kent, proposes to build thirty-five boats similar to the one now being finished at Howard's. Each of these boats will be 200 feet in length and forty-three feet beam. Each will be capable of making fifteen miles an hour up stream and twenty-two down stream. The speed of the boats will be a great guarantee, Mr. Kent said, of fast service.

Each of the vessels, Mr. Kent said, will draw not more than four and a half feet of water, which means that they will be in operation all the year round, high and low tides.

The boat now being built at the Jeffersonville shipyards had her keel laid last May, and will be ready for launching on or about October 28. This vessel Mr. Kent said, will be more or less an experiment, as the company desires to try the gasoline and electrical machinery and other appliances before contracts are let for more barges. The purpose of operating the barges with this kind of machinery is to reduce to a minimum the danger of fire on board and possible damage to consignments of freight.

RHEUMATISM ARRESTED

Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system. To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and uphold your strength. Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.

Fine Sleeping Porches.

Claude Maley is building the handsomest set of solariums and sleeping porches that have yet been put up here, onto his home at Second and Adams. The solarium is 20 feet square and will be built of stone, with tile floors, ornamental Italian columns, etc. The room will have glazed casements for use in winter, and screens for summer use. The room will be heated in winter and filled with plants for use as a conservatory. The sleeping porch above will be equipped with novel lighting features and every other convenience for a sleeping porch. This new addition is to be built at the side of the house, and the old front porch will come down to be replaced with a new portico in harmony with the rest of the addition.

The work is in charge of Architect Gilbert.

The above from one of our exchanges show to what extent sleeping porches are coming into general use as a necessary part of the house.

THE CHARM OF MOTHERHOOD

Enhanced By Perfect Physical Health.

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely on Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes since childhood there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham's Vegetable Compound, Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Martial Law At The Hague Ordered

The Hague, via Paris, Oct. 19.—Martial law in a specified and partial form was proclaimed here today.

The proclamation affects the various trades which furnish supplies for the army.

How would you like to travel 108 miles by sleigh in zero weather?

That's what President Terry of the Hartford Fire Insurance Company did after the great New York fire of December 16, 1835, in order to make immediate payment of the Hartford losses.

In the same staunch spirit the Hartford promptly paid out \$1,900,000 after the Chicago fire, and \$10,000,000 after the San Francisco disaster.

Hartford protection costs you no more than other kinds—and you can depend upon prompt settlement in case of fire. May we tell you more about it?

Haynes

resting With Whirlwind.

One of the remarkable features of the climate and atmosphere of Syria is the prevalence of whirlwinds and water spouts both on land and over the sea.

They are most prevalent in the deep trough of the Jordan valley and also in Coeln-Syria, where the Lebanon and Anti-Lebanon form another trough for the winds. They sometimes do an immense amount of damage, and often at most unexpected seasons. As a touring missionary in Northern Syria, I often met the whirlwinds. They appear in the shape of a column of dust, perhaps two to five feet in diameter, rising straight in the air for several hundred feet, opening like a large funnel at the top. The lower end touches the ground and swings over the surface, picking up dust and pebbles in its path. The chaff and even grain on the threshing floors is sucked up and disappears. Small fish are sometimes drawn up when the swaying column passes over a stream or lake. Many years ago I tried the experiment of riding through the swaying column of a rather innocent looking whirlwind. My horse was terrified, and I had difficulty in keeping my seat in the saddle. It is impossible to say what exactly did happen. It took me some time to find my hat, and several days to get the dust from my eyes and ears and clothing, and I have never tried it again.—The Christian Herald.

Dudley Noggle Married

(Concluded from first page.)

Leading the bridal procession were the ushers, Messrs. Jordan Stanley, Wm. Miller, Noble Johnson and Pete Ramsey.

Miss Lorena Stocking, as bridesmaid, and Mr. Chester Schulz, as groomsman, entered simultaneously in the right and left aisle.

The groom with his best man, Harry Johnson, of Marion, Ky., came from the rear of the church to meet the bride before the palm adorned altar, the Lohengrin bridal music being played as a processional. Just before the entrance of the bridal party Miss Inez Spain sang "Oh Promise Me." "I Love You Truly" was played in an undertone during the ceremony, and at the close the Mendelssohn march was played as a recessional. The church was done entirely in green with palms, fern, etc.

The bride was very lovely, wearing a costume of ivory duchess satin which had been her mother's wedding gown, her tulle veil which fell in misty folds over a court train being held in place with orange blossoms. She carried a shower bouquet of bride's roses.

Pale green taffeta with white fur and touches of gold composed the costume worn by the maid of honor, the bridesmaid being gowned in pink taffeta veiled in chiffon, the gowns of the maids being made walking length and both carrying bouquets of roses.

After the ceremony the bridal party was entertained at the home of the bride's parents, Mr. and Mrs. J. D. Morehead in Madison avenue.

Pink and white was carried out in the decoration of the interior, the bridal table being centered with a French basket of pink roses and the bride's cake with the good luck emblems, the ring, thimble and dime, which was also a feature being cut by the bride at the close of the feast, an ice course being served.

Mr. and Mrs. Noggle will make a Southern bridal journey and after their return will reside at 107 Madison avenue.

The bride will travel in a coat suit of dark blue whipcord with fur with which was worn a black
